Streamline your process

Improves submission, evaluation, and approval processes

Improves financial management:

- Manage budget and understand amount of committed dollars for specific time periods
- Track payments over time and manage payment schedules
- Manage the grant budget across product and therapy area and by investigator and site

Facilitates proactive investigator communications

Allows for proactive recognition of issues, leading to improved company-investigator relationships

Only half of all independent investigator trials are ever completed; fewer than half of those are ever published. Envision is committed and uniquely capable of enhancing the management of your IIT grant portfolio—to increase the value of the dollars you invest in grants

The screenshot displays the 'envision pharma' software interface for 'Grant # B001052 - Details'. The interface is divided into several sections:

- Grant Details:** Includes fields for Product (Bosonic/Bosonic), Grant Type (Institutional), Request Date (Nov 14, 2005), Grant # (B001052), Grant Status (Approved), Investigator (Copeland, Robert), Institution (Ohio State), Est. Decision Dt (Nov 15, 2005), and Act. Contract Dt.
- Amounts and Funding (Amounts in US Dollars):** Shows Request Amt (\$50,000), Funding Source (Leukonic IS Fund), and Grant Award details (Paid To Date \$0, To Be Paid \$50,000).
- Study Details:** Includes Study Title (Continuous Infusion Bosonic with Etoposide and Cyclophosphamide as Preparative Therapy for Autisms), Study Number, Study Phase (Phase IV), Duration (Years), Study Category (Single-Center), Study Population (Adult), Expected Patients, Accrual Rate, and Primary Center (Ohio State University Hospital).
- Task List:** A vertical list of tasks with checkboxes, including 'Acknowledge Application', 'Verify Resource Assignments', 'Activate Preliminary Review', 'Preliminary Review', 'Catalog Grant Request', 'Activate Team Review', 'Team Review', 'Activate Final Review', and 'Final Review'. A 'Send Decision Letter' button is also present.
- Attachments:** A section for document attachments, currently showing 'Continuous Infusion Bosonic Review'.

The Visiontracker™ advantage

Ease of use—an intuitive application with very little training required

Performance—Visiontracker™ is built for speed

Customization—four customization points to easily configure Visiontracker™ to your processes

In-house team—proven adoption methodology and in-house customer care, development, and technical support

The chart—dynamic aggregation of all key elements of your IIT program

Plan ahead with vision
